YMCA under construction

What led you to the commercial construction industry?

I followed my uncles and brother

What are some of biggest challenges facing the industry today? Getting and keeping quality workforce; Rising insurance prices

What is your area of focus/expertise? What part of Hampton Roads do you work?

Commercial electrical work focusing on healthcare facilities, schools, office buildings and churches
We work throughout the Hampton Roads area and on the Eastern Shore and down into North Carolina

Diamond Springs Elementary

Do you have a role model in the industry or someone you have learned from that you would like to identify?

J.W. Tabor and Richard Tabor
Lenny Ballance

What are the major changes or trends do you foresee for the future?

Less open market bid work; more design/build and negotiated work; older work force; kids don't seem to want to get into construction
